

Trex Decking Products

Trex[®]

HOW OUTDOOR LIVING SHOULD FEEL

Who Is Trex®?

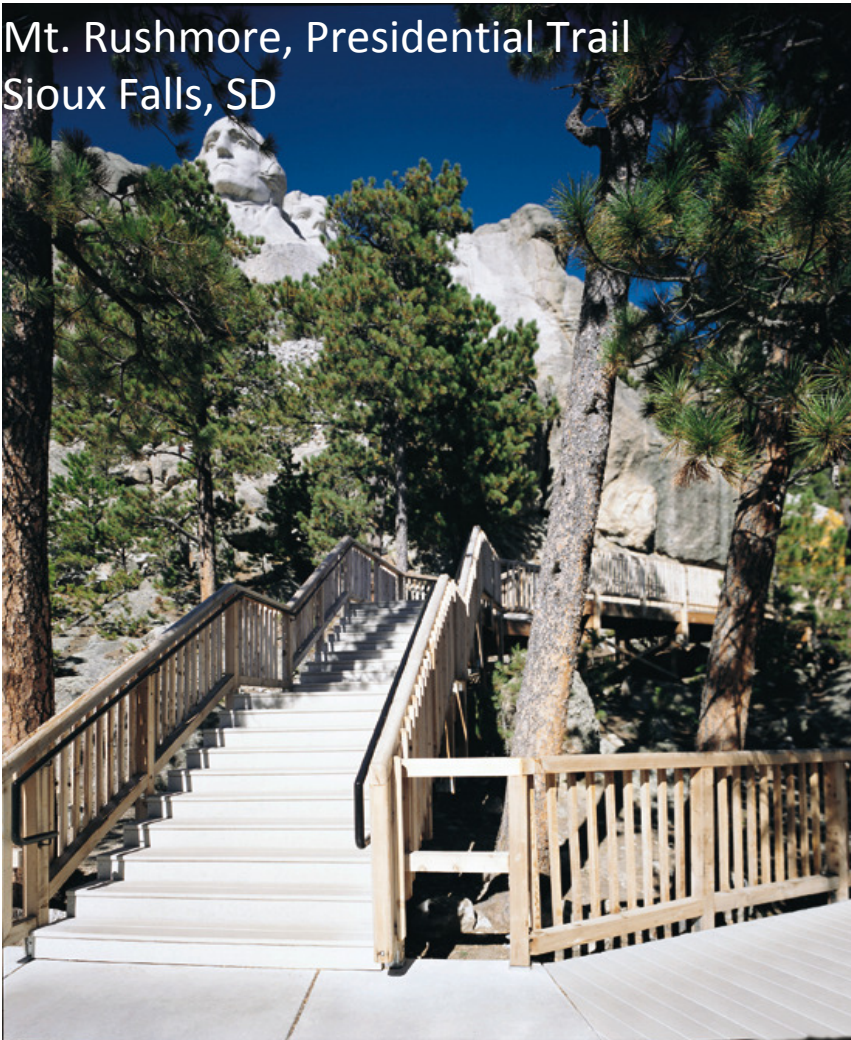

Trex invented the wood-alternative decking category and continues to lead the industry with innovative, low-maintenance products for relaxed outdoor living.

- Started in 1992 as a division of Mobil Corporation
- Trex Company was formed in 1996; Went public in April 1999.
- Installed on over 1,000,000 projects since 1996.
- Listed on the NYSE under stock symbol TREX.
- Headquartered in Winchester Virginia, with plants in Winchester and Fernley, Nevada

Why Trex®?

Mt. Rushmore, Presidential Trail
Sioux Falls, SD

- Leading brand
- Proven performance backed by a strong warranty
- Available through more than 5,500 retail locations world wide

Environmentally Friendly

Trex uses recycled plastic and reclaimed wood to create environmentally-friendly products

- Keeping more than 400 million pounds of plastic and wood scrap out of landfills annually
- Trex recycles all forms of polyethylene --- including packaging, shrink wrap, and shopping bags.

Not Just Green. Certifiably Green.

- Decking is certified to contain 95% recycled material from the ICC-ES SAVE Verification
- Trex products contribute to a project's LEED points

More than just decking

Complete outdoor system:

- Decking and Porch flooring
- Steel deck framing
- Railing
- Deck lighting
- Trim

And even extras like:

- Deck drainage systems
- Outdoor furniture
- Pergola kits

Murrindini Reserve Welcome Center deck in Australia

The Myrtle Beach Boardwalk (Myrtle Beach, SC, USA)

By James M. Wooten, PE, FASCE and Dale Gaff, ASLA
as featured in LandscapeOnline.com

The Myrtle Beach Boardwalk spans roughly 1.2 miles and features three distinct sections.

The section pictured above is from the North Boardwalk (Dune Walk) that runs from Plyler Park to 14th Avenue North (the northern terminus of the boardwalk) and consists of Trex decking.
